When sending your order, please check the following points carefully.

- Write your Name and Address in Block Letters.
- Give Name or Code Number of item required and Page No.
- The Price and Postage.

"Brickplayer" Kits contain everything necessary to make miniature model buildings for your railway.

See the "Brickplayer", Buildings on our Month Model Railway Layout.

If you want the most realistic lineside buildings of them all for your "0" track, build them yourself from bricks and mortar with "BRICKPLAYER." You may follow the architect designed "BRICKPLAYER" plans or even carry out your own ideas.

Once the mortar is dry all models set rigid and become solid structures—yet to dismantle them it is only necessary to soak them in cold water and the bricks can be used over and over again without deterioration.

'Brickplayer' Kits, First Floor

TRUE TO SCALE LINESIDE BUILDINGS FOR 'O' TRACK

'Brickplayer' Kits contain everything necessary to make miniature model buildings—standard bricks in full, $\frac{3}{4}$ and $\frac{1}{2}$ sizes, Gable and Peak bricks for sloping roofs, etc., windows, door frames and door inserts, transparent glazing and tiled and concrete roofing. Blueprints of the ground plans of a number of buildings are supplied and a profusely illustrated 30-page booklet giving full details.

"BRICKPLAYER" KIT No. 3

Contains approximately 350 bricks of different sizes and shapes, window and door frames, doors and glazing, roofing materials and cement. Blueprints are supplied showing ground plans for 6 models, illustrated in the booklet.

A FAMOUS BRIDGE . . .

THE ROYAL BORDER

Carries the main line from London to Edinburgh over the River Tweed. It consists of 78 stone arches of 61 ft. 6 in. span, the maximum height being 126 feet above river bed. The bridge was opened by Her Majesty Queen Victoria, on 29th August, 1850. The Engineers were Robert Stephenson and T. E. Harrison.
